

Anli Holdings Hosts 2018 Media Luncheon

(8 March 2018, Hong Kong) **Anli Holdings Limited** (“Anli Holdings” or the “Group”) held a media luncheon at ÉPURE French Fine Dining, Tsim Sha Tsui on 8 March 2018 so as to facilitate closer communication between the Group and the media. Mr. Andrew Wong, Chairman and CEO of Anli Holdings, Mr. Lawrence Lai, Managing Director of Anli Asset Management Limited, Ms. Kimmy Tong, Research Director of Anli Securities Limited joined representatives of Anli Financial Communications Limited in hosting the luncheon.

The media luncheon drew journalists from 7 media outlets including major newspapers and online media among others. During the luncheon, Mr. Andrew Wong commented on the impacts of new policies imposed by US President Donald Trump on the global economy and analysed the trend of Hong Kong stocks this year. For stock recommendations, Ms. Kimmy Tong favoured commodity goods, especially gold stocks, for its defensive nature and as a hedge against rising inflation. Mr. Lawrence Lai concluded that data showed no signs of capital flowing into bond markets from stock markets, despite a recent increase in the yield on US Treasury bonds. His asset management team will continue to tap Vietnam and Australia markets for investment opportunities.

Subsequently, various articles about the media luncheon were published on the newspapers and online media platforms. The luncheon effectively enhanced the communications between Anli Holdings’ management and reporters and enriched the latter’s understanding of Anli Holdings’ positioning as a well-rounded financial institution engaging in a wide spectrum of business operations including securities trading, research and analysis, asset management and financial communications.
